

Career Opportunity
Suboxone Treatment Coordinator
(Full-time Permanent)

Closing:
November 22, 2024

Anticipated Start Date:
Immediate

Salary Range:
Starting salary based on qualifications

General Description:

Under the direction of the Health Director, the Suboxone Coordinator is responsible for a wide range of case management activities and programming offered for persons engaged in treatment for opioid use disorder in the community of Sipekne'katik. Working within a multi-disciplinary team, the Suboxone Coordinator will act as a liaison between community agencies and the Sipekne'katik Opioid Treatment and Recovery Program, facilitating treatment planning, case management and delivering targeted interventions across a broad spectrum of health determinants to ensure comprehensive quality of care. A sound working understanding of community health approaches in First Nations communities and various community-based agencies in Sipekne'katik, and throughout Nova Scotia, will be required.

Responsibilities:

a) Program Coordination:

- a. Manage program structure and content to ensure clients' needs are prioritized (includes regular solicitation of feedback from clients).
- b. Establish and maintain organized systems for conducting and tracking patient's stability, including but not limited to random medication counts and urine drug screening.
- c. Facilitate both group and individual programming in a variety of recovery-related domains (social, cultural, spiritual, practical).
- d. Manage program budget.
- e. Organize collaborative case conferences for individuals who would benefit from a team-based approach to care.
- f. Maintain and organize standard records in order to facilitate program evaluation and ensure continuity of care.
- g. Participate in program evaluation on an ongoing basis – various tasks may be required, including but not limited to conducting client interviews, consolidating client feedback, and providing program statistics. Formal program evaluation should be done annually.

- h. Assist in the social elements of hepatitis C and HIV treatment in collaboration with the on-site Medical team and existing provincial support initiatives.

1. Individual Treatment Management plan: 70%

- a. Meet with new clients for an orientation session to review programming options, assess the needs of the individual, and review safe practices/harm reduction strategies in the context of treatment for opioid use disorder.
- b. Develop individualized treatment plans with clients, including emotional spiritual, physical and mental well being.
- c. Support clients seeking opportunities to make progress on their wellness goals through engaging with various agencies including, but not limited to, education, employment, justice, and family services.
- d. Identify and mitigate barriers to treatment adherence (for example, organizing transportation).
- e. Create individual files for each client and do follow up, weekly to ensure that program is being run efficiently.
- f. Ensure that a good communication plan with Mental Health Clinicians is created.
- g. Utilize circle of care team to help with process for each client.

2. Community Outreach: 10%

- a. Organize and implement community and family education on treatment of opioid use disorder.
- b. Organize stakeholder meetings.
- c. Facilitate collaboration with various community agencies to foster support for individuals in recovery.

3. Dispensing and monitoring: 5%

- a. Witness dispensing of buprenorphine/naloxone out of the health centre on a part-time basis to ensure ongoing contact with clients, providing opportunity for routine informal check-ins for individuals who do not actively seek out programming and support.
- b. Conduct witnessed urine drug screening as required.
- c. Conduct medication counts as required.

Qualifications and Experience/Skills:

- Bachelor's degree in social work, and in good standing with the Nova Scotia Association of Social Workers
- Certification/experience in addictions support/counseling
- Related experience working in a First Nations Community
- Strong communication and teamwork skills
- Vulnerability Sector Check to accompany resume
- Must have a valid driver's license and reliable vehicle
