**Anadromous**-Stripped Bass go from sea to river for the purpose of laying eggs.

**Annapolis River**-Stripped Bass used to spawn in Annapolis River, but no longer due to what is believed to be pollution and pesticides.

**Coastal**-Stripped Bass are coastal fish as they only leave far from shore for spring and fall migration.

**Cod**-Cod are predators of Stripped Bass.

**Dorsal Fins**-Stripped Bass have two dorsal fins, one of which is noticeably spiny.

**Estuaries**-Stripped Bass are found in bodies of salt water with rivers feeding into them called estuaries.

**Herring**-Juvenile Herring are prey of Stripped Bass.

**Shubenacadie River**-Stripped Bass are no longer found in the Shubenacadie river due to what is believed to be pollution.

**Silver Hake**-Silver Hake are predators of Stripped Bass.

**Smelt**-Smelt are prey of Stripped Bass.

**Squid**-squid are prey of Stripped Bass.

**St John's River**-The St. John's River is the site of spawning Stripped Bass, unlike the Shubenacadie or Annapolis the population has been able to survive.

**Zooplankton**-Zooplankton are prey of Stripped Bass.
