
Valard invites interested members from participating Mi'kmaq/Mi'gmaq communities involved in the Wasoqonatl Transmission Project to apply for the following:

Journeyman Powerline Technician

RESPONSIBILITIES

- Install, maintain, and repair poles, towers, power lines, cables, and related equipment (transformers, switches, insulators, conductors)
- Splice and terminate conductors to connect transmission and distribution networks
- Perform stringing operations for both distribution and transmission circuits
- Operate vehicles and equipment such as bucket trucks, digger derricks, mobile cranes, and trenchers
- Follow industry standards, safe work practices, and regulations for high- and low-voltage systems
- Work independently or supervise others as required, often in remote or challenging environments

REQUIREMENTS

- Red Seal Journeyman Powerline Technician Trade Certification
 - Minimum Class 3 Driver's Licence with air brakes and a clean driving abstract
 - Experience with energized systems from 25kV to 230kV
 - Physical capability to work at heights, climb poles, lift heavy objects, and operate specialized equipment safely
 - Knowledge of power transmission and distribution principles, construction techniques, and safe work standards
 - Must be willing to work a shift rotation of 28 days on and 14 days off, working 11- or 12-hour days
 - Selected candidate will be required to sign up for IBEW membership
-

Positions Available: TBD

Closing Date: Will remain open until the positions are filled

To apply, please forward your resume to:
